

Achievements of the Five Sessions Of

The International Conference on Prophetic Sireh (Practical Behavior) in Medicine

Introduction:

Following the insult to the holy Prophet Muhammad (PBUH) in ۲۰۱۲, a number of faculty members from Shiraz University of Medical Sciences decided to hold the first conference on the Prophetic Practical Behavior (Sireh) in Medicine. Since ۲۰۱۳, this conference has been held for three days on the anniversary of the Prophet Muhammad's (PBUH) birth. From its inception until now, this biennial conference has created empathy among university scholars, seminary scholars, and scientists across the country, moving towards systematizing research in the health domain with a spiritual approach based on the teachings of the Prophet Muhammad's (PBUH) tradition.

Among the critical tasks of seminary and university researchers in this conference is to introduce the endless treasures of knowledge hidden in the Quran and Hadiths and to reveal the truth of the Ahl al-Bayt's message to the world. Achieving this goal and increasing the impact of the seminar's message - which is the enhancement of spiritual and physical health in the light of attention and adherence to Quranic and Hadith principles - will only be possible by creating empathy among scholars from seminaries and universities.

Delving into uncertain and unreliable details that are unfortunately promoted in the name of religion by dogmatic groups will divert society from paying attention to the authentic truths of teachings hidden behind worldly veils. Therefore, one of the most important outcomes of the conference is the promotion of spiritual and physical health towards the human ultimate goal, which is fulfilling the duty of servitude.

Objectives:

The organizers of this scientific conference, while emphasizing the sublime position of the Prophetic Sireh in medicine, draw special attention of officials, policymakers, and health researchers to the contents of this conference's declaration as follows:

۱. The Necessity of Reviewing Medical Science Textbook Content with the Aim of Creating a Comprehensive Perspective, Emphasizing Human Physical-Spiritual Identity and Benefiting from Religious Teachings in this Regard.
۲. Utilizing the Latest Scientific, Educational, and Research Developments and Experiences of Iranian and Islamic Medical Heritage, while Preserving the Structure of Islamic Thought and Education Based on the Prophetic Guidance "The Most Knowledgeable is One Who Combines People's Knowledge with His Own"

۳. Reviving Forgotten Values of Islamic Era Scholars and Incorporating this Perspective Appropriately in Contemporary Scientific Texts
۴. Improving Educational Resources by Using Quranic and Narrative Guidance, Avoiding Presenting Guidelines in Non-Integrated Conditions, and Incorporating Selected Islamic Wisdom Relevant to Medical Science Needs in Various Related Courses
۵. Engaging Serious Participation from Seminary and University Professors, Students, and Scholars to Accept Purposeful Roles in Interdisciplinary Research of Islamic Sciences, Medical Sciences, Philosophy, Islamic Wisdom, and the Elevated Status of the Prophetic Sireh in Health Teachings
۶. Issuing a Call for Collecting Proposals from Professors and Scholars in Interdisciplinary Research between Religious and Medical Sciences, Covering Short-term and Long-term Research, and Presenting Research Results to Domestic and International University Students and Professors and Religious Seminaries with a Specific Research Program and Network Research Structure
۷. Extensive Interaction between Medical Universities and Religious Seminaries to Deepen the Culture of Prophetic Sireh in Medicine and Utilize the Capacities of Both Sectors
۸. Special Attention and Commitment to Medical Jurisprudence in Theoretical and Practical Dimensions, with Careful Consideration from Medical University Presidents and Respected Seminary Heads in Implementing this Process
۹. Establishing a Think Tank to Explain Islamic-Iranian Development Models in Health and Wellness Sectors by Employing All Scientific Resources of the Country at Shiraz Medical Sciences University

Conference Pillars:

Supreme Conference President	Dr. Mohammad Hadi Imaniyeh
Conference President	Dr. Abdolreza Mahmudi
Scientific Secretary	Dr. Mahmoud Nejabat
Executive Secretary	Dr. Jamal Sarvari
Head of Conference Policy Council	Dr. Abdolali Mohaghegh Zadeh

Organizers, Supporters, and Participants in the Biennial International Conferences on the Prophetic Tradition in Medicine

Scientific Ibn Sina Association, Shiraz University of Medical Sciences

Esra Studies Center

International Affairs Deputy of Shiraz University of Medical Sciences

Educational Deputy of Shiraz University of Medical Sciences

Research and Technology Deputy of Shiraz University of Medical Sciences

Cultural and Student Affairs Deputy of Shiraz University of Medical Sciences

Supreme Leader's Representative Office at Shiraz University of Medical Sciences

Topics:

Conference Title	Topics
The First International Conference on the Prophet's Sireh in Medicine – ۲۰۱۳ Explanation of the Prophet's Conduct in Medicine	
The Second International Conference on the Prophet's Sireh in Medicine – ۲۰۱۵ Promotion of the Prophet's Conduct in Medicine	۱. Explaining Illness and Health ۲. How the medical team communicates. ۳. Medical Hadiths. ۴. Training physicians and medical teams ۵. Healthcare ۶. History of Islamic Civilization in Medicine
The ۳rd International Conference on the Prophet's Sireh in Medicine – ۲۰۱۷	۱. Explaining Health and Illness ۲. The Manner of Interaction of the Medical Team ۳. Healthcare and Treatment ۴. Education of the Physician and Medical Team ۵. Medical Hadith ۶. History of Islamic Civilization in Medicine
The ۴th International Conference on the Prophet's Sireh in Medicine – ۲۰۱۹	۱. General Principles of Health and Illness from the Perspective of the Prophetic Sireh ۲. Health and Social Functions of the Prophetic Sireh ۳. Health and Healthy Relationships from the Perspective of the Prophetic Sireh ۴. Principles of Maintaining and Promoting Health and Treatment from the Perspective of the Prophetic Sireh ۵. Education and Training of Health Professionals from the

	Perspective of the Prophetic Sireh ٦. Systematic Scientific Approach to Medical Hadith ٧. Analysis of the History and Civilization of Islam and Iran in Medicine
The ٩th International Conference on the Prophet's Sireh in Medicine – ٢٠٢١	١. Interdisciplinary Sciences and the Position of Spirit, Psyche, and Self ٢. Medical Sciences and the University of Wisdom-Based Knowledge ٣. Medical Ethics from the Perspective of the Prophetic Sireh (Opportunities and Challenges) ٤. Experiences of Spiritual Health during the COVID-١٩ Pandemic ٥. Transcendent Care at Home

Awards and Gifts:

The prize of each conference was allocated to one of the prominent scientific personalities of the country and was awarded to the qualified people based on the defined criteria of each course.

Conference	Award in the name of the professor	Recipients
٤th ٢٠١٩	Ayatollah Haeri Shirazi	Dr. Jamali Sisters' Seminary Anjuman Ibn Sina Professor Golshani Ayatollah Beheshti
٩th ٢٠٢١	Professor Qamar Hosseini Al-Hashemi	Ayatollah Mostafavi

Activities and Actions Performed:

١. Pre-Meetings (Appendix ١)
٢. Workshops (Appendix ٢)
٣. Student group (domestic-international) (Appendix ٣)
٤. Publications and Compilations (Appendix ٤)
٥. Cooperation of educational groups of Shiraz University of Medical Sciences (Appendix ٥)
٦. Cultural activities (Appendix ٦)

Results and Achievements:

١. Presenting biotechnology topics at the international level (Madagascar and UNESCO representative, etc.).

٢. Cooperation of different groups in an interdisciplinary manner and with the aim of convergence of science and religion, which resulted in holding ٥ meetings.

Interactive Psychology was conducted in collaboration with Taleb and the professors of the Department of Neuroscience.

٣. The cooperation of different groups in an interdisciplinary manner and with the aim of convergence of science and religion, which resulted in the holding of ٥ interactive sessions of Elm Al-Nafs with the cooperation of students and the professors of the Department of Neuroscience.

٤. Entry of international students and holding international pre-meetings with a focus on the Prophet's Sireh in medicine

٥. Cooperation between the seminary and the university

٦. Widespread participation of students in the November ٢٠١٩ conference despite the closure and current issues

٧. Introducing models such as Ayatollah Beheshti

٨. Introduction of Spiritual Integrity Topics to the Academy

٩. Following up on the topics related to Islamic psychology in different periods of the conference.

١٠. Planning for the compilation of the Encyclopedia of Medical Hadiths

١١. Launching the discourse of the conference as the mission of the conference.

١٢. Cultural Manifestation of the Conference in Shiraz University of Medical Sciences

١٣. Debates with extremist claimants of Islamic medicine

١٤. Launching a discourse and striving to keep its flag

١٥. Theorizing in the field of Philosophy of Science (Philosophy of Transcendental Medicine Based on Islamic Medicine- The Theory of Transcendental Medicine by Ayatollah Beheshti)

١٦. Considering spiritual topics in Shiraz University and Shiraz University of Medical Sciences (Entry of Spirituality Projects and Articles into Medical Sciences Research Discussions)

١٧. Examining the achievements of other conferences and the continuation of Conference on the Prophet's Sireh in Medicine in comparison with other conferences

١٨. A logical response to the desecration of the Holy Prophet (pbuh) as the primary goal of the conference.

١٩. Emphasizing the Prophet's path by inviting also Sunni scholars to the conference

٢٠. Making changes in scientific issues and the current scientific environment and fostering discourse.

- ۲۰. Guidance and counseling in the compilation of ۲۱ dissertations on spiritual health by students of different levels
- ۲۳. Communication with non-medical universities in five conferences (Shiraz University, Qom University of Health and Religion, Faculty of Qur'anic sciences, etc.)
- ۲۴. Creating a platform for cooperation between the Society of Science and Religion with the Conference on the Prophet's Sireh in Medicine
- ۲۵. Communication and cooperation with Education Organization and teachers
- ۲۶. Launching research in the health of the soul and body
- ۲۷. Fighting against deviant tendencies
- ۲۸-Entering the discussion of wisdom in medicine
- ۲۹. Ayatollah Javadi Amoli's New Approaches to the Prophet's Biography
- ۳۰. Publication of selected articles in Persian and English

Pre-Meetings (Appendix ۱)

Every year, in the time periods before the conference, pre-meetings are held by prominent professors of the seminary and university in the University of Medical Sciences, in which the professors and students analyze the topics from their point of view by attending these meetings, and the Department of Ma'ref assigns privileges for them, some of the most important pre-meetings are:

Pre-Session Title	Presenting Professors	Date
Prophet of Health and Mercy	Ayatollah Dr. Ahmad Beheshti	۲۰۲۰
Challenges and Requirements of Islamic Psychology Methodology	Dr. Ahmadi	۲۰۱۹
Islamic Psychology Approach in the Biomedical Model of Mental Illness	Dr. Seyyed Ali Marashi	۲۰۲۰
The University Founded on Wisdom	Dr. Haq Doost	۲۰۲۱
Online Seminar on Autonomic and Cognitive Functions of the Brain; From the Series of Interdisciplinary Scientific Topics	Sheikh Dr. Mahmoudi Dr. Hadi Aligholi	۲۰۲۱
The Theory of Authenticity and Truth in the Subject of Health	Ayatollah Dr. Ahmad Beheshti	۲۰۲۱
Transcendental Medicine	Dr. Seyyed Ziaeddin Tabei	۲۰۱۵

Analysis of the Subject of Islamic Medicine	Dr. Mohammad Mehdi Isfahani Professor at Iran University of Medical Sciences	۲۰۱۵
Transcendental Medicine	Ayatollah Beheshti (Department of Ethics)	۲۰۱۷
Wisdom	Ayatollah Beheshti (Faculty of Theology)	۲۰۱۷

Workshops (Appendix ۲)

Workshop Title	Lecturer	Date
Islamic Iranian Lifestyle for Employees (۱)		۲۰۱۵
Islamic Iranian Lifestyle for Employees (۲)		۲۰۱۵
Islamic Psychology	Dr. Sayed Ali Marashi	۲۰۱۷
Philosophy of Medicine	Dr. Namazi	۲۰۱۷
Islamic Experimental Sciences	Dr. Golshni	۲۰۱۷
Self-Knowledge	Dr. Abbasi	۲۰۱۷
The Relationship between Soul and Body in Health	Dr. Hemmati Moghaddam	۲۰۱۷
Transcendent Medicine	Dr. Tabei	۲۰۱۷
Spiritual Health	Dr. Jaladat	۲۰۱۷
Future Studies	Dr. Elahian	۲۰۱۷
Theorization Based on the Holy Quran and the Health Field	Sheikh Bahmani	۲۰۱۷
Medical Hadiths	Sheikh Rahman Setayesh / Dr. Masoudi	۲۰۱۷
Methodology of Studying and Analyzing Medical Hadiths	Sheikh Rahman Setayesh	۲۰۱۷
Challenges and Methodological Requirements of Islamic Psychology	Sheikh Dr. Ali Abu Turabi	۲۰۱۹
Interaction between Neuroscience and Philosophy (۱)	Department of Neurosciences in the Seminary	۲۰۲۰
Interaction between Neuroscience and Philosophy (۲)	Department of Neurosciences in the Seminary	۲۰۲۰
Interaction between Neuroscience and Philosophy (۳)	Department of Neurosciences in the Seminary	۲۰۲۰
Interaction between Neuroscience and Philosophy (۴)	Department of Neurosciences in the Seminary	۲۰۲۰
Life Skills Workshop in the Prophetic Biography	Deputy for Cultural Affairs at Shiraz University of Medical Sciences	۲۰۲۰
Preparing Scientific Research (۱)	Dr. Ahmad Gholami	۲۰۲۲
Preparing Scientific Research (۲)	Dr. Ahmad Gholami	۲۰۲۲

Student Group (Domestic-International) (Appendix ۳)

Since ۲۰۱۳, the student section of this conference has presented articles at this conference in collaboration with the seminary students. Since ۲۰۱۶, it has been decided that international students will also be actively present at this conference and, with the help of professors from the University of Medical Sciences and prominent professors from their own universities, conduct scientific research and present it at the conference. Therefore Since ۲۰۱۶, the international section of the conference has commenced operations, and international students have actively participated in this section. The selected students were then introduced to the university's international affairs office to receive cash and non-cash awards. This matter led to a warm welcome from international students. From the year ۲۰۲۱, it was decided that in the years when the conference is not held (as the conference is biennial), a pre-conference event for international students would be organized. This year, this international pre-conference with a focus on the Prophet and health was held by the Center for Quranic, Hadith, and Medical Research, in collaboration with the International Affairs Office of Shiraz University of Medical Sciences.

۱. Holding weekly policy-making meetings by the conference officials with the heads of Iranian and international student groups.
۲. Inviting the officials of the Student Research Committee in weekly meetings
۳. Forming specialized student working groups under the supervision of professors
۴. Assessing the needs of the topics of the conference and pre-meetings with the presence of the heads of student groups and the officials of the student research committee.
۵. Collecting the students' articles and publishing them in the conference booklet.
۶. Examining the best articles of students and selecting the best ones for publication in the scientific research journal of the country.
۷. Holding conference review sessions and pre-meetings with the presence of conference policymakers and heads of student groups.
۸. At the end of each specialized working group, students present their views in the form of survey questionnaires.

Students can also be effective in improving the quality of holistic care based on the principles and values of Islamic professional ethics.

۱۳

Publications (Appendix ۴)

۱. A book in search of lost health by Dr. Seyyed Ziauddin Tabe'i and Dr. Ahmad Ghalami
۲. The Book of Man and Health Author: Dr. Ahmad Kalteh Sadati
۳. Encyclopedia of medical hadiths in progress

Cooperation of educational groups of Shiraz University of Medical Sciences (Appendix ۶)

Cooperation of professors and directors of various educational departments of Shiraz University of Medical Sciences, including the Department of Neuroscience, Genetics, Medical ethics, social medicine, Persian medicine and Islamic studies, in order to hold interdisciplinary meetings, including activities of the conference.

The Department of Islamic Studies in the group council decided that all professors should approve privileges for the participation of students in this conference, and on the other hand, special privileges should be given to the selected students in this conference. The professors from the Islamic Studies department and the Seminary also collaborated with the professors from the Medical University in the clinical and basic science fields to provide academic writing training for students and seminary students. This collaboration led to joint sessions attended by students, seminary students, and professors from the Medical Ethics department. The results of presenting this new method indicate that by combining religious and medical sciences, it is possible to train students who are familiar with the generalities of national and Islamic knowledge as well as medical sciences and who can conduct joint research in the clinic by combining medical knowledge and religious and Islamic knowledge.

In general, the results and consequences of implementing this new method can be summarized as follows: Medical science graduates, as experts familiar with the generalities of national and Islamic knowledge, as well as the principles of holistic care and the principles and values of Islamic professional ethics in today's world, can analyze the moral and spiritual dimensions related to medical sciences, respond to problems in a scientific and reasoned manner, and participate in the production of knowledge in this field.

۱. Increasing the level of satisfaction of clients with health services
۲. Promoting the application of the principles of Islamic professional ethics in health and treatment environments.
۳. Designing models of care based on Islamic teachings and following up on their realization in practice.
۴. Management of health and treatment systems with a holistic care approach and the values of Islamic professional ethics
۵. Familiarity of the professors of the Department of Islamic Studies with the terms and syllabuses of the courses of the students of the Department of Medicine
۶. Familiarity of medical professors with revealed teachings
۷. Training knowledgeable, proficient and committed students who are able to employ, teach, supervise, implement and manage all physical, mental, psychological, social and spiritual aspects based on the principles and values of Islamic professional ethics in health and treatment environments.
۸. Improving the quality of medical education based on the principles and values of Islamic professional ethics

٩. Increasing the level of patients' satisfaction with health services, promoting the application of the principles of Islamic professional ethics in health and treatment environments.

١٠. Designing medical education models based on Islamic teachings and following up on their realization in practice.

Cultural Activities (Appendix ٦)

١. Holding an art exhibition with the theme of Hazrat Rasool (peace be upon him)

٢. Holding a national meeting on bioethics

٣. Holding several sessions to review the properties of foods and medicines in Iranian Islamic medicine by Dr. Shoara

٤. Holding a book reading competition attributed to the Prophet (pbuh) by the vice chancellor of the university.

٥. Attending the presence of seminary professors in Qom

٦. Receiving the messages of the elders of the seminary and the ministry, etc . At the beginning of each conference
